

SPACEFINDER CABINETS

Spacefinder™ Cabinets' fixed shelf design can save you time and money by improving the utilization of your storage space, without sacrificing accessibility. They are the ideal solution to address accessibility, security and space issues. Spacefinder Cabinets are available in two shelf height configurations, come in two to seven compartments high and in an array of contemporary colors.

Better management of your space

Spacefinder Cabinets are designed to maximize filing capacity, often eliminating the need for multiple cabinets. Their convenient lateral fixed shelf design replaces vertical rollout drawers, reducing the aisle space required.

Access & secure information easily

With Spacefinder Cabinets you identify your folders on the side to speed up filing and retrieval times. The fixed shelf design eliminates the risk of tipping associated with rolling drawer cabinets. When coupled with doors and ganglocks, your information is securely stored.

Organize for efficiency

Spacefinder Cabinets can accommodate letter/legal size folders. They are also available with extra large multimedia size shelves. You can store files, binders and other media in one area, reducing filing and retrieval times.

Benefits

Reduced storage space

(up to 60% less than traditional roll-out drawer filing cabinets)

Maximized efficiency of your filing

(all media stored in same cabinets)

Controlled access to your most important files

(with doors and ganglocks)

Reduced long-term cost of storage

(with a lifetime warranty)

TAB STORAGE SYSTEMS

Spacefinder Cabinets Go Mobile

Get more storage in less space by adapting Spacefinder cabinets to be used as a SIDE-TRAC unit. Cabinets are condensed in compact groups to eliminate unnecessary aisles. The front row glides from side-to-side on wheels, permitting access to the back row. The track is easily leveled on existing floor surfaces and may be extended or relocated very simply. TAB's anti-tip mechanisms fully stabilize both stationary and mobile storage units.

Space-Saving Solutions

TAB's Spacefinder Cabinets provide superior strength, economy and versatility when floor space is scarce. They are extremely rugged and durable, suitable for letter, legal and DataMedia depth, and are available in 36-inch widths and six convenient heights.

Cabinet	Height	Width	Depth
